

INFECTION PREVENTIONIST BOOT CAMP

Presented by Cheryl Parsons

You have been named the Infection Preventionist for your facility. You have completed your certification for the IP but still aren't sure where to start or how to go about doing the job with confidence. We are here to give you the confidence you need! Bring your laptop and your infection control policy and procedures and **leave with assurance that you and your facility are where they need to be with IPCP and all its requirements.**

We will review the CMS 23-hour training as the core to IPCP development and review your IPCP and its accompanying policy and procedures to improve your confidence. We'll build your personal library of resource material, develop your tracking logs and QAPI communication tools and finally we will create a schedule of routine tasks for you to adhere to for purposes of maintaining compliances.
