

Missouri Health Care Association

CLINICAL SUPERVISOR WORKSHOP

TRAIN THE TRAINER SERIES

Purpose & Objectives

This state-required and MO Dept. of Health & Senior Services-approved workshop is designed to prepare RNs & LPNs to supervise nurse assistant students during their required on-the-job experience. Upon completion, participants will be able to:

- Identify MO Dept. of Health & Senior Services requirements and regulations for nurse assistant training
- Develop skills in working with adult learners
- Utilize appropriate methods in assigning and coaching adult learners
- Determine standards of performance in evaluating clinical skills
- Share experiences and solutions during clinical supervision

Criteria for a Clinical Supervisor

- Registered professional nurse or licensed practical nurse currently licensed in Missouri or have a temporary permit from the MO State Board of Nursing
- Currently employed by the facility where the students are performing their duties or by the agency conducting the course
- Shall be on facility premises in which the students are performing their duties while the students are completing their on-the-job training and shall directly assist students in their training and observe their skills when checking competencies
- The clinical supervisor shall have at least one (1) year of experience in long term care if not currently employed by a long term care facility

Certificate of Attendance

In order to receive a certificate, you must attend the entire workshop. Upon successful completion, a certificate will be mailed to the facility or individual that paid for the course. *Certificates cannot be issued until full payment is received.*
